

We both highly recommend Dorene Matney as a web consultant/designer. It has been a complete pleasure working with Dorene on every aspect of rebuilding and maintaining our website. During the process of taking an existing website and doing what seemed to be a very complicated make over, Dorene always offered options and ideas to help guide us in our decisions. She works quickly and efficiently in all areas and accepts our challenges in the spirit of what is best for our company with helpful suggestions. Her continued maintenance on our website has proven to us that we have selected the perfect person for all of our website needs.

Personally speaking, Dorene has been our guardian angel throughout the whole process of building our website, and her attentiveness to all details is such a wonderful trait that exceeds all expectations. Where we lacked the knowledge of how to set up our website, Dorene quickly translated our ideas into actions and once we began working with Dorene, her understanding of the needs of our website came as second nature to her. The ease of communicating back and forth through e-mail or by phone is very effective and efficient. We could not have accomplished even a fraction of what she has performed for us on our own. Dorene is truly a blessing!

Sincerely,

Valerie Scaglione & Priscilla Maxwell
